

2024 Rotary Botanical Gardens – BioBlitz

Join us on Saturday, June 8th at 8am for our first BioBlitz! A BioBlitz is an event that focuses on finding and identifying as many species as possible in a specific area over a short period of time. A Bioblitz is also known as a biological inventory or biological census. The primary goal of a BioBlitz is to get an overall count of the plants, animals, fungi, and other organisms that live in a place.

We will kick-off the event with a short introduction to BioBlitz and the corresponding app, iNaturalist. Participants must download the app on their smartphone to participate in this event. While this is a family-friendly offering, this event is most suitable for kids 8+.

Please note in the event of inclement weather we will move the BioBlitz to Sunday, June 23rd.
